Student Graduation Rates

The Department of Education requires our disaggregated reporting of student graduation rates during the spring reporting cycle each year. The data reported is based upon our first-time, full-time new bachelor's seeking undergraduate students which typically represents less than 5% of our overall student enrollment. This current year's report reflected the rates of the cohort from the fall of 2006. The summary graduation rates by gender, ethnicity, and Title IV are shown below.
