

## **Confidentiality and Disclosure of Disability Information**

Disability information like any other confidential medical record information does not become part of a student's permanent education record. Disability information is generally housed in the Student Support Department unless the student also provides it to another campus department. Copies of disability documentation can only be provided with a written release signed and dated by the student, detailed on the [Release of Records or Information](#) form .

Students who request services based on the reasonable accommodations plan developed with staff in the Student Support Department acknowledge that some level of disclosure to certain faculty and/or staff may be necessary in order to provide requested accommodations. Students are under no obligation to disclose a disability unless an accommodation is being requested.
