Credit Terms

Charges – Under this Agreement, we will process all of your financial transactions with the University through your Student Account, which reflects your financial obligations to the University and all payments received by the University from you or third parties on account of your financial obligations to the University. The terms of this Agreement apply to all purchases, charges, fees, fines, tuition and loans, made or obtained by you, made or obtained by someone else with your permission, or assessed to you, by, from, or with respect to the University (collectively referred to as "Charges" and individually as "Charge"), including, but not limited to:

- a) Tuition fees;
- b) Course, lab and student fees;
- c) International fees for study abroad programs;
- d) Transcript fees;
- e) Graduation fees;
- f) Housing charges;
- g) Meal plan charges;
- h) Bookstore charges;
- i) Library fees;
- j) Parking fees;
- k) Locker fees;

Prior to the beginning of each Academic Enrollment Period, Charges for the courses for which you are registered and other Charges for services you have requested to receive will be applied to your account. Changes in your course registration during the Drop/Add period which result in an adjustment to your Charges for tuition and fees will be reflected in the Charges to your account after the end of the Drop/Add period. Tuition and fees will be adjusted without penalty only during the Drop/Add period as published in the General Information Letter. Registration changes that occur after the Drop/Add period that result in a reduction in your credit load are not entitled to Charge adjustments. Other Charges to your account, including but not limited to registration changes that increase your credit load or result in fees, fines or other Charges, will be reflected on your account as they are incurred. No reduction to Charges, including but not limited to, tuition and fees, is made during an academic period in which you are enrolled and subject to an administrative withdrawal, academic warning, academic probation, academic dismissal, disciplinary probation, disciplinary suspension, or disciplinary expulsion that occurs

during the period of enrollment; or in the case of late entrance. Adjustment to Charges as a result of a medical withdrawal will be determined based on the facts and circumstances and will be authorized by a University Review Committee.

Amount Due – The total amount due under this Agreement is equal to the net balance of your Student Account which is calculated as your total Charges less any payments made or financial aid disbursed and applied, plus any debit adjustments, less any credit adjustments applied to your Student Account. Charges may be added to your Student Account at any time during the term of this Agreement based on the services you elect to receive. Thus, the Amount Due may fluctuate throughout the term of this Agreement. However, the cumulative Amount Due under this Agreement will not exceed the Maximum Amount Due. The Amount Due will be reported to you on a Student Account Statement, which is a statement that you will receive from the University on a periodic basis.

Maximum Amount Due – The Maximum Amount Due under this Agreement will not exceed a cumulative total of Forty five Thousand three Hundred twenty eight (\$45,328.00) dollars. If you incur Charges beyond the Maximum Amount Due, payment will be due immediately with respect to the excess over the Maximum Amount Due. The actual Maximum Amount Due you will be charged will depend upon, among other items, your use of educational services offered by the University, the costs of the specific degree program in which you are enrolled, the number of credit hours in which you enroll, the fees associated with your specific degree program, the room and board charges associated with electing to reside in a residence hall, and any other miscellaneous charges you elect to incur. Your actual Maximum Amount Due could be substantially less than the amount noted in this agreement.

Your obligation to pay is not reduced by any financial aid that you applied to receive but for which you were not eligible to receive or which was not disbursed on your account, regardless of the reason the disbursement was not made.

- If you are enrolled as a non-term student and have not applied for financial aid, your Academic Enrollment Period is the period between the first and last day of the single class that is charged to your Student Account.

The University may change the amounts and types of Student Mandatory Fees and Charges.

Tuition Remission – The University may offer Tuition Remission to its employees and their eligible family members. Employees wishing to receive Tuition Remission benefits must apply following the University's policies established by Human Resources. Employees granted Tuition Remission benefits will have a credit applied to their student account. If a student who receives a Tuition Remission benefit has a remaining balance due after the Tuition Remission credit is applied, they agree to immediately pay the Amount Due on their Student Account in full. The University reserves the right to modify or cancel Tuition Remission benefits at any time.

Financial Aid – If you have been awarded and have accepted financial aid, and if all eligibility requirements have been met, but the aid has not been credited to your Student Account, you may deduct the total amount of grants, scholarships or loans awarded for the Academic Enrollment Period from the Amount Due. The balance remaining is due by the applicable Due Date.

If you have applied for financial aid but have not completed and submitted all the documents necessary for the University to process your aid and apply it to your Student Account by the first

day of your Academic Enrollment Period, you will be responsible to pay the full Amount Due on your Student Account by the applicable Due Date regardless of any anticipated financial aid. Any federal or state aid applied to your account after the first day of the Academic Enrollment Period that results in a credit balance on your Student Account will be refunded to you following the federal financial aid regulations. Any financial aid other than federal or state aid applied to your Student Account after the start of the enrollment period that results in a credit balance on your account will be refunded to you following the University's policies.

If your eligibility for financial aid is reduced due to changes in enrollment or registration or failure to attend classes, if you decide to return any of the aid you received and was applied to your account, and/or if you cancel any loan you received within the cancellation period resulting in a return of funds to the lender, the amount of financial aid credited to your Student Account will be adjusted in compliance with federal and state regulations and University policies. Any such decrease in financial aid will result in an increase in the Amount Due.

You have the right to cancel all or part of a federal loan any time prior to a disbursement of the loan on your Student Account or within thirty (30) days after the disbursement is credited to your Student Account. To cancel a federal loan prior to its acceptance the cancellation may be submitted online at <http://www.stritch.edu/onlineaid> or submitted in writing. After a federal loan has been accepted a cancellation request must be made in writing. After a federal loan has been disbursed and credited to your Student Account you have a maximum of thirty (30) days to cancel the loan and the cancellation request must be made in writing. All written cancellation requests must be either mailed with a postmark that provides evidence of the mailing date to Cardinal Stritch University, Inc., Attn: Financial Aid, 6801 N. Yates Road Box 208, Milwaukee, WI 53217; sent via e-mail to finaid@stritch.edu; OR faxed to 414-410-4088. The amount canceled will be charged to your Student Account and returned to the lender.

If you have an Amount Due after all financial aid you are eligible to receive and that you have accepted has been credited to your Student Account, you agree to immediately pay the Amount Due on the applicable Due Date. You agree you will be automatically enrolled in a Payment Plan if you a) have failed to meet a payment Due Date, b) have a balance due after all financial aid you are eligible to receive has been applied to your Student Account and have not made payment in full by the Due Date, c) have a balance due because aid you may be eligible to receive cannot be applied to your Student Account because you have not completed and submitted all the documents necessary to process and apply your aid to your Student Account and have not made payment in full by the Due Date or d) have a balance due for any other reason for which you have failed to make payment in full by the Due Date. You are subject to a late payment fee of 5% of the amount due or \$10 (whichever is less) per month late payment fee for failing to make payment in full by the Due Date or failing to make an installment amount due for a Payment Plan by the Due Date.

Paid-In-Full – A student's account is considered "Paid-In-Full" only if they have a zero or credit balance. You have a "credit balance" on your account if the University owes you a refund. It is important to note that if you add Charges to your Student Account after it is Paid-In-Full, your Student Account will no longer have Paid-In-Full status.

Authorized Payment Plan Agreements and Payment Plan Providers – A student who is unable to pay the full amount of the Amount Due at the first day of an Academic Enrollment Period may enter a separate Payment Plan Agreement with the University, "Stritch Payment

Cardinal Stritch University, Inc.

Plan” or with an Authorized Payment Plan Provider, collectively referred to as a “Payment Plan,” to spread their payments out over the Academic Enrollment Period. Entering a Payment Plan Agreement does not satisfy your promise to pay the University. A list of all Authorized Payment Plan Providers and information to contact them is available online at <http://www.stritch.edu/tuition>.

Transcripts – Requests to issue official transcripts will only be processed for students whose account balance is Paid-In-Full. Students with a debit account balance at the time a request to issue official transcripts is received will have their request denied until such time as their account balance is Paid-In-Full. Students may access unofficial transcripts at any time online at <http://my.stritch.edu>.

It is important to note that a student’s request for official transcripts will be denied when the student has an Amount Due at the time of the request, even if the student anticipates the Amount Due will be Paid-In-Full after the application of all expected future payments on their account from payments made under a Payment Plan or the application of anticipated financial aid that has been awarded and accepted.

Registration – Continuing students are eligible to register for a future enrollment period when their account balance for the current enrollment period is equal to or less than \$4000.00 at the time of registration for the future enrollment period. Students with an amount due equal to or higher than \$4001.00 at the time they are scheduled to register for a future enrollment period are not eligible to register for a future enrollment period. A student with an amount due equal to or higher than \$4001.00 may be granted an exception by the University’s Bursar allowing the student to register if;

- a) they have entered a Payment Plan, they are current in all the payments due under the Payment Plan, and the total amount that will be paid under the terms of the Payment Plan will satisfy the Amount Due on their account for the enrollment period; or
- b) they have been awarded and accepted financial aid and all eligibility requirements have been met, the aid is not credited to their account, when the aid is processed by the University and credited to the student’s account it will satisfy the Amount Due on their account for the enrollment period.

Diplomas – Diplomas will only be issued to students whose account balances are Paid-In-Full at the time of graduation. Students with an Amount Due at the time they have completed all their academic requirements necessary to graduate will have their request to receive their diploma denied until such time as their account balance is Paid-In-Full.

It is important to note that a student’s request for their diploma will be denied when the student has an Amount Due at the time of the request, even if the student anticipates the Amount Due will be Paid-In-Full after the application of expected future payments on their account from payments made under a Payment Plan or the application of anticipated financial aid that has been awarded and accepted.

Denial of Advantages – A student whose account balance is not Paid-In-Full may be denied other advantages they would be eligible to receive if their account balance was Paid-In-Full, including but not limited to, housing preferences, library privileges, access to computer technology through online services or in campus computer labs, use of University facilities

available through academic departments such as athletics, music, theatre, and dance, and participation in University sponsored activities.

Federal financial aid regulations will be followed when issuing a refund caused by the application of federal or state aid. The University's policies will be followed for credit balances caused by all other transactions.
